

Florida Microplastic
AWARENESS PROJECT

UF | IFAS Extension
UNIVERSITY OF FLORIDA

The Florida Microplastic Awareness Project is asking people to pledge to do their part to help keep our ocean clean from plastics.

1. What county and state do you live in? (If you have multiple residences, feel free to list all locations.)

2. Please check the actions that you are willing to do (or are already doing) to help reduce the amount of plastic that enters the ocean.

ACTION	I will try and do this	I already do this
Read labels on personal care products and avoid products containing polyethylene		
Use paper or reusable shopping bags instead of single use plastic ones		
Avoid using plastic drinking straws		
Bring my own water bottle instead of buying single-use plastic water bottles		
Bring my own washable coffee/hot drink cup instead of using foam		
Use foil or a washable container as a "to go" box at restaurants, or for packing lunches		
Recycle as many plastic items (those with the triangular recycle logo) as possible		
Choose more natural fabrics instead of microfiber, nylon, acrylic, polyester or polypropylene		
Other (please specify):		

3. May we send you a follow-up survey in a few months? If so, please give us your e-mail address (this will not be shared or used for any other purpose)
