PHILOSOPHY AND GOALS OF THE INDIAN RIVER COUNTY 4-H PROGRAM

“The purpose of the program is to provide young people an opportunity to participate in a series of activities designed to improve citizenship, sportsmanship, character, competitive spirit, discipline, responsibility, and project knowledge, while creating an atmosphere of learning and awareness of life around us.”

If you take the time to study this statement, the goals and implications are life changing. We do not anticipate a child would progress at the same rate in all these objectives. However, it is expected given the proper motivation and guidance by leaders, parents and the 4-H agent, there would be improvements in all areas. Simply having a 4-H'er recognize they could improve is a significant accomplishment.

Most 4-H'ers participating in a livestock project will already have an interest in the animal. It is the 4-H club leader's responsibility to utilize this interest to accomplish these objectives. You will notice the first objective is not knowledge of the livestock animal. Though knowledge of the animal is an important part of the 4-H program, it should be understood that the animal is only a tool to be used to further the education and development of the child. There are more than 360 projects in 4-H, and all have the common goals of making better citizens of youth, increasing their knowledge in a subject area, and inspiring them to explore all areas of interest.

It also should be noted exhibiting at the County Fair is not the major objective of this program. Anyone who believes otherwise is in error, and, in doing so, sets themselves and others up for failure and disappointment. This is not to minimize the importance of Fair shows in helping us achieve our goals, but it must be understood that our first and most important objective is the education and development of the child.

Indian River County 4-H

Completing your Project Book

Objective

The purpose of the 4-H Project Book is to teach youth how to keep accurate records for their animal project, to keep a written record of their involvement in their 4-H club as well as how it has helped them grow as a 4-H'er.

A Completed 4-H Record Book Includes:

- ✘ Cover Page with picture
- ✘ Skills Learned checklist
- ✘ 4-H/Project Narrative
- ✘ 4-H County Report Form
- ✘ Project Pictures
- ✘ Youth Animal Project Agreement
- ✘ Project Record Book
- ✘ Completion Certificate
- ✘ 3 Copies of Buyer Letter (*Make sure to address each letter to a different recipient, if applicable*)

Before you Begin

- ⊕ Junior Record Books may be written in either ink or pencil, but not both. Intermediate and Senior Level 4-H'ers should use either blue or black ink consistently throughout the book. **NO COMPUTER-GENERATED record books will be permitted.**
- ⊕ Record book covers are to be furnished by the 4-H'er. They may be solid or have a clear plastic cover. Use report folders with brads to keep pages intact. **DO NOT USE 3-ring binders; they take up too much room when being judged.** Other than that, you can get as fancy as you want, but please know that **you will be judged only on the content and neatness of your book.** Any extra fancy material is just for your own satisfaction.
- ⊕ Any record book(s) not up to date by the Fair will result in forfeiting the right to show and sell your project animal or horticulture project at the IRCYLH Fair Show and Auction; and any record books not in neat and orderly condition will be returned to the exhibitor and not judged. Youth who do not complete and submit a complete record book by the deadline set by the 4-H Agent will be considered Not in Good Standing.

Cover Page

Please fill out all information on the provided cover page. Be sure to *affix a picture of yourself and/or project*.

Skills Learned

A checklist of the life skills you have learned by working with your project and attending club activities. This checklist will also help you prepare your 4-H Project Story and 4-H Report Form.

4-H/Project Narrative (Meld your project narrative with your 4-H narrative)

Tell your 4-H / project narrative through your own words. Your 4-H Story is your chance to tell in your own words about your involvement in your 4-H club. It should not only be an account of your club's activities, but also your specific involvement in those activities. For instance, if your club held a car wash fund-raiser, be sure to list that activity, but also the Judge will want to know if you helped buy supplies, collect money, secure the location, held signs, soaked the 4-H Leader or parents, etc. (how did you assist in helping?) If you held any club offices and describe any duties you had to fulfill for that position. If you traveled to any out-of-county events and what you did at them. If you went to any summer camps or anything fun! Talk about your demonstration, any awards won, and your end-of-the-year trip your club went on. Be sure to include what you have learned – about life, yourself and others. Meld your project story with your 4-H story. Your project story section should cover why you selected that particular animal and where you purchased your animal. You should also describe daily care, feed and exercise regimen. It should also list any problems, if any, you had with your project. For example, if there is a drop-in weight for a certain month and a list of medicine bought during that same time, you should explain why the animal was sick and what you did to get the animal well. Finally, be sure to talk about what you have learned from your project animal. Remember to keep it in a story format.

4-H County Report Form

Please complete the included 4-H Report Form. Take some time to think back over the year's 4-H activities and put some thought into your answers. Be as specific and thorough as possible. **ALL** sections must be answered in a complete sentence(s); even if the answer is no. For example: ***Were you a club officer this year? If yes, what position did you hold? Answer: No, I was not an officer for my club this year.*** Make sure to include pictures of you participating in some of your club's activities.

Project Pictures

The Project Picture section should show the growth of your project from start to finish (if possible) or show the daily, weekly, monthly, or yearly care of your animal. There should be at least 4 pictures, but no more than 8. Pictures must contain a date and a Smart caption (do not forget a picture is 1000 words, teach someone what you are doing or what they are seeing in the picture and explain its importance), and they should be in chronological order.

Animal Project Agreement

This form is to be completed, signed and dated at the BEGINNING or START of the project by the 4-H'er, parent/guardian, and the Club Leader.

Project Record Book

This record book should not contain any physical receipts, unless otherwise specified, but recorded entries of all expenses incurred during the project (if you bought anything for your project this is where you would put it). The project book itself is self-explanatory, but please follow the instructions. If you have any questions, ask your 4-H Leader for their help.

Completion Certificate

The statements on this page should be read, signed, and dated by the 4-H'er and the Club Leader. All sections, expect for the sections that relate directly to the fair.

Record Book Judging

Remember, your record book needs to meet the minimum requirements, per the rubric, and **once a record book committee designee has approved your book, you will be invited to check-in your project. Your Leaders may ask to collect record books prior to this date and will notify you by what time and date they will be collecting the updated record books for the club.**

Record books will be returned, upon completion of the Fair, for you to take home and finish accordingly. Finished record books are to be turned into the Extension Office **by Club Leaders only** no later than the designated due date by 4:30 P.M. No exceptions will be tolerated! **Again, your Leaders may ask to collect record books prior to this date and will notify you by what time and date they will be collecting the finished record books for the club.**

Remember that all judges' decisions are final; the score sheet is a guide for the judges' use.

4-H Record Book

Introduction

This Project Record Book has been created specifically for 4-H members enrolled in a Swine 4-H Project. Keeping a record book is an important part of the project. It will help you set goals for the project year, record your accomplishments, and provide a place to keep important records on your Swine project.

What is a 4-H project?

A project is a subject or topic that you learn about in 4-H. In this case, your project is Swine. You learn about your project by attending club meetings, educational workshops, and working with adult leaders and other 4-H members. You can also learn from field trips and by participating in shows and competitions.

Why complete a record book?

A record book is not meant to be a chore. Instead, it is a way for you to learn about your project, as well as other valuable skills such as setting goals, information collection, evaluating information, tracking costs and expenses, organization, and others.

Completing your 4-H Swine Project Record Book.

This project will help you learn about market animals – how to select for good type, basic feeding, care and managements techniques. You will also learn how to teach others how to develop an outstanding project.

Primary objectives of the swine project:

- To acquire an understanding of market animal production by preparing for, purchasing, caring for, and keeping record.
- To be able to identify the types and grades of animals and employ efficient methods of marketing.
- To understand the business aspects and economics of purchasing animals, feeds, facilities, and equipment for a market animal project.
- To develop integrity, sportsmanship, and cooperation.
- To develop leadership abilities, build character, and assume citizenship responsibilities

Take a glance through the record book so that you can see how it is organized. As you can see, there are pages that pertain only to health, and there are pages that pertain to show records and/or financial summaries. You only need to complete the pages relevant to your project animal. But you should complete **all** the relevant information for the year.

This is my _____ year doing a 4-H Swine Project.

Project Goals (at start of project)

State at least three (3) goals at the beginning of your 4-H project year. Tell the things you want to learn from your 4-H Swine Project. Please discuss these goals with your parents and your 4-H leader. (Ex. Learn how to select breeders for best results, etc.)

1. _____

2. _____

3. _____

Summary of Accomplishments (when record book is due)

What goals have you accomplished? If you have not accomplished one or more of your goals, please explain. What have you learned? Describe your experiences this year. (Attach an additional page if needed.)

Notes for Project Summary

1. Total Gain - Final weight minus beginning weight.
2. Final Average Daily Gain (ADG) - Total gain divided by the total number of days on feed. Use number of days from date you purchased your animal to date of check-in.
3. Conversion - Pounds of Feed (FED) per Pound of Gain - Total pounds of feed fed divided by the total gain.

Buyer's Letters

- Insert 3 buyer's letters addressed to 3 different recipients after the last page of the record book
- Letters must be handwritten but can be photocopies
- Accommodations can be made if typed entries are needed

The project year is based on a calendar year; current project year is the same year as current Fair.

Notes for Project Inventory

1. Date Acquired - List the date you obtained this item, on items older than 1 year, the year will be sufficient.
2. Purchase Cost or Value - What did this item cost when you obtained it? (Fair market value)
3. Value at Beginning of Project- Same as purchase cost for items purchased current calendar year. On items from previous years this should be the value from last year's ending inventory or depreciated value of 10% of purchase cost per calendar year.
4. Depreciation of 10% - This will be 10%, per project year, of the original purchase cost for the items you will still have at the end of the project. This includes items you had at the beginning of the project as well as items purchased during the current calendar year. Depreciation is the loss in value of your assets and is an expense.
5. Value at the End of the Project- This is the value at the beginning of the project minus the depreciation.

Examples:

A B C D

Item Description	Date Acquired	Purchase Cost or Value	Value at Beginning of Project (column D from prior year)	Depreciation (10% of column A)	Value at end of project (B minus C)
Rope	Purchased 4 years ago	5.00	(Depreciated 10% for 3 years) 3.50	.50	3.00
Comb	Purchased 3 years ago	5.00	(Depreciated 10% for 2 years) 4.00	.50	3.50
Brush	Purchased previous calendar year	5.00	(Depreciated 10% for 1 year) 4.50	.50	4.00
Bucket	Purchased current calendar year	5.00	(No previous depreciation - purchased current project year) 5.00	.50	4.50
Total Depreciation*				2.00	
Value of project assets					15.00
