

Beef Management Calendar for November Dr. Cindy Sanders

- Have soils tested.
- Observe cows daily to detect calving difficulty.
- Use mineral with high level of magnesium if grass tetany has been a problem in the past.
- Check for external parasites and treat if needed.
- Maintain adequate nutrient level for cow herd.
- Calve in well-drained pastures.
- Survey pastures for poisonous plants.
- Start summarizing your annual records, both production and financial-then you will have time to make adjustments for tax purposes.
- Re-evaluate winter feeding program and feed supplies.
- Get breeding soundness exams on bull battery so you have time to find replacements if some fail.
- Implement bull conditioning program.
- Review plans and arrangements for the upcoming breeding season.
- Check progress of developing replacement heifers
 - are they going to meet your target weight by the start of the Breeding Season?
