4–H CLUB FACT SHEET

Barnyard Buddies
Duval County 4–H

Club Purpose

The purpose of our 4-H Farm Animal Care Club is to provide students with hands-on experience in the care and management of farm animals, including chickens, goats, ducks, and pigs. By participating in the 4-H Farm Animal Care Club, students will not only develop valuable life skills but also contribute to the welfare of the animals and the broader community.

Club Projects

1. Daily Animal Care: Students will take turns feeding, grooming, and monitoring the health of the animals.
2. Educational Workshops: Invite local farmers or veterinarians to give talks on animal husbandry, nutrition, and health care.
3. Farm Visits: Organize trips to nearby farms to learn about different farming practices and animal care techniques.
4. Animal Health Checks: Teach students how to perform basic health checks and recognize signs of illness.
5. Building and Maintenance Projects: Work on constructing and maintaining animal shelters, pens, and other farm infrastructure.
