4-H CLUB FACT SHEET

Clover Coop & Company 4-H Club
Duval County 4-H

Club Purpose

Love animals? Curious about how to care for rabbits, chickens, or goats? This hands-on 4-H club is designed to introduce younger members to the world of animal science through fun, age-appropriate learning. Our purpose is to help youth build a strong foundation in animal care, responsibility, and confidence through monthly lessons focused on different barnyard animals. Members will develop showmanship skills, learn what it takes to keep animals healthy and happy, and gain a deeper appreciation for life sciences. Whether you're new to 4-H or passionate about farm animals, this club is a great place to grow and explore!

Club Projects

Members of this club can explore 4-H projects in rabbits, poultry, and goats while learning about animal care, feeding, housing, and showmanship. They'll also build skills in record keeping, veterinary basics, and environmental stewardship. Creative projects like photography and poster displays let youth share what they've learned in fun and meaningful ways.
