

4-H CLUB FACT SHEET

Rooted in Green 4-H Club Duval County 4-H

Club Purpose

The purpose of the Rooted in Green 4-H Club is to engage youth in hands-on learning that connects them to agriculture, sustainability, and community impact. Through growing their own blueberry plants and exploring topics like nutrition, entrepreneurship, and environmental stewardship, members gain practical skills and a deeper appreciation for where their food comes from. This club encourages curiosity, responsibility, and growth—both in the garden and in life.

Club Projects

Club projects focus on agriculture, gardening, and sustainability. Members will grow and care for their own blueberry plants while exploring related topics like nutrition, marketing, and community service. These hands-on projects help youth build skills in plant science, responsibility, and environmental awareness.
