4–H CLUB FACT SHEET

Young Master Naturalists
Duval County 4–H

Club Purpose

Our club is for young nature lovers ages 8–18, with a special focus on homeschoolers. Rooted in the Florida Youth Naturalist Program, the club takes inspiration from the Florida Master Naturalist curriculum to guide members through Florida's diverse ecosystems; from uplands and freshwater habitats to coastal environments. Through hands-on exploration, educational activities, and service projects like park and preserve cleanups, members will develop a deeper understanding and appreciation of Florida's native wildlife and natural spaces.

Club Projects

Our projects fall under Environmental Sciences and the focus rotates each year. Examples include Marine Science, Forestry, Wildlife, Soil and Water, Environment, and Earth Sciences.
