

Private Labs Serving Central

Lake County Factsheet

Brooke Moffis, Commercial Horticulture & FL Friendly Landscaping Extension Agent

The UF/IFAS Soil Testing Lab has the capability to test pH, potassium, calcium, magnesium, zinc, copper, iron, and manganese, all necessary for optimal plant growth. For more information about UF/IFAS soil tests, visit <https://soilslab.ifas.ufl.edu/ESTL%20Tests.asp>.

If a soil test is needed for metals, herbicides, or other chemicals not essential to plant growth, please contact one of the below private labs. These labs offer services for central Florida citizens. The below listing does not serve as a recommendation, but as a resource for residents and growers.
