

Flowering Trees Nurseries for Miami-Dade County Residents

If you wish to add some color to your landscape, flowering trees and shrubs are an excellent choice for south Florida. If you cannot find what you are looking for at a local garden center, the nurseries listed below grow a variety of such plants. The following list has been compiled as a service for residents of Miami-Dade and implies no endorsement of any or all of the nurseries listed. When considering any of the growers listed, *please note that some are open to the general public by appointment only*. You should call ahead to arrange a visit. In some instances, growers will also install the plants they sell and/or give landscaping advice. For more information, contact UF/IFAS Extension Miami-Dade County at 305 248-3311, ext. 228.

Growers - If you would like to have your flowering tree nursery added or removed from our list, please contact us.

Miami-Dade County
