

FIELD TRIP POLICY FOR MASTER GARDENER VOLUNTEERS

Many of our outings will be for Master Gardener Volunteers in good standing only. This means that children, other family members, friends, and pets will not be permitted to attend the field trips.

If a field trip presents mobility challenges, it will be communicated with the initial information, as well as with any other information regarding the trip. It is a given that not all trips planned will be able to accommodate all special needs.

A minimum number of participants will be set and, if that number hasn't been reached within one week before a trip, the trip shall be cancelled.

A deadline/sign up cutoff date will be added to all communications to ensure that Master Gardener Volunteers sign up in a timely fashion and understand that, after that date, if there are not enough interested then the outing will be cancelled.
