Frogfruit	<i>Phyla nodiflora</i>	X	X	X	X	white	X	X	X		
Wild Pennyroyal	<i>Piloblephis rigida</i>	X				violet	X	X	X	X	
Blue-eyed Grass	<i>Sisyrinchium angustifolium</i>	X				blue-purple	X			X	
<p>To reduce risks to pollinators, buy plants that have never been treated with systemic insecticides. Every plant has different sun, soil, and moisture conditions in which it grows best and should be planted in a suitable location. Find native plants through your local native plant nurseries (www.fann.org) or through your local chapter of the Native Plant Society (www.fnps.org) This list compiled by Jessica Sullivan, University of Florida IFAS-Osceola County, sullivan@ufl.edu, 321-697-3000</p>
