Blue Glory Vine  
*Thunbergia battiscombei*

‘Blue Glory’ is a weak-stemmed vine that grows to 2-3' tall. It does not climb, but typically scrambles over and through nearby perennials and shrubs. Plants die to the ground in winter in USDA Zones 8 and 9, but usually will come back in spring.

**Type:** tropical perennial evergreen vine  
**USDA hardiness zones:** 8 through 12  
**Uses:** ground cover; border; hanging basket; container  
**Origin:** not native to Florida  
**Height:** 2 to 3 feet  
**Spread:** 3 to 6 feet  
**Plant spacing:** 4 to 6 feet  
**Light requirement:** full sun to part shade  
**Soil tolerances:** sand; loam; clay; slightly acidic; slightly alkaline; wet to well-drained  
**Drought tolerance:** moderate  
**Salt tolerances:** unknown  
**Invasive potential:** low to none  
**Pest resistance:** No serious insect or disease problems
