## Project Goals

Set goals for your project and write them on the lines below.

---

---

---

---

---

---

---

## Information and Skills Learned

Example: I learned how much sun the plants require and why it is important

1. 

---

---
2. 

---

---
3. 

---

---

## Future Plans

What would you change in the future and why?

---

---

---

---

---

---

---

# Measurements

Take measurements of your plants twice a month to note changes in growth and evaluate plant conditions. Measure the (for plant A and B) height and width of your plant in inches, provided an estimated percentage of growth, count the number of flowers you see, and measure pH.

Date	Plant #	Height, in inches	Width, in inches	# of Flowers Visible	Estimated % of new growth	pH

## Short Story

Write a short story about your experience of growing plants below.

---

---

---

---

---

---

---

---

---

---

---

---

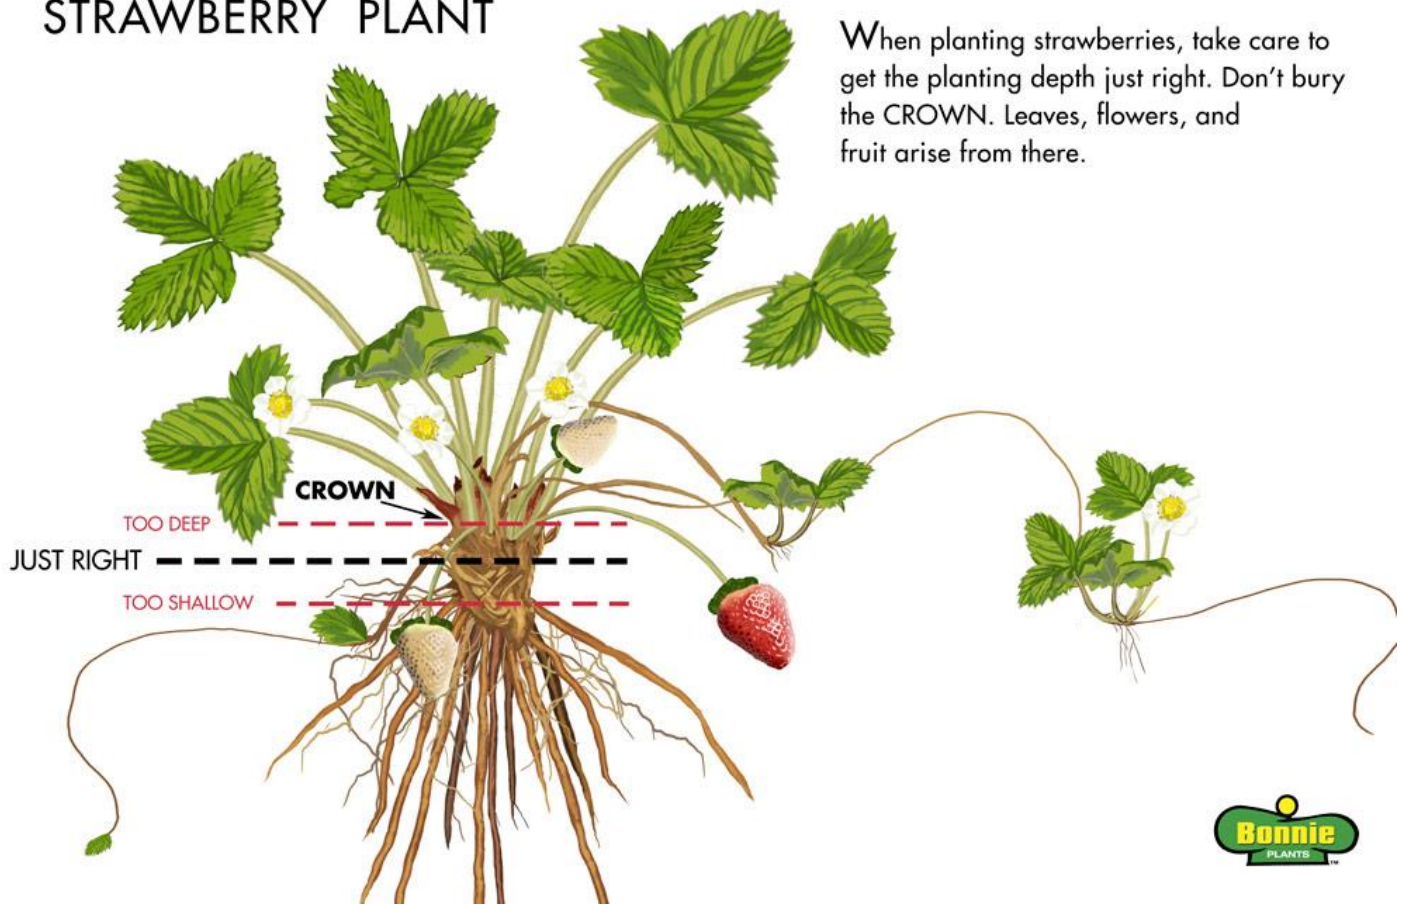

## Photos

Please include a minimum of 2 photos showing skills you learned, practices used and/or timeline of your project.

Label the Parts of the Plant Below

**STRAWBERRY PLANT**

When planting strawberries, take care to get the planting depth just right. Don't bury the CROWN. Leaves, flowers, and fruit arise from there.

Draw and Label the Parts of the Blueberry Plant
