# Purpose

The purpose of a rabbit animal project is to achieve the following:

1. Acquire an understanding of rabbit production by preparing for, purchasing, caring for, and keeping records on one or more rabbits.
2. Identify the types and grades of animals and employ efficient methods of marketing.
3. Understand the business aspects and economics of purchasing rabbits, feeds, facilities, and equipment for a rabbit project.
4. Develop integrity, sportsmanship, and cooperation.
5. Develop leadership abilities, build character, and assume citizenship responsibilities.

**It is very important that every section of this record book be completed accurately and to the best of your ability.**

## Medical Statement

I hereby certify that any medication, antibiotic, or biological residue, which may have been administered by myself, or any other person, was done so in strict compliance with the manufacturers' label requirements.

## General Record Book Guidelines

It is suggested that you make a copy of this book to use as a "work copy." The records can then be transferred into this book for the "final copy."

### Helpful Notes:

1. Your record book should start on the purchase date of your rabbit(s).
2. Record books are to be completed for all of your market rabbits.
3. Always double-check your work, especially your math calculations.
4. Have someone check your project story for spelling and grammar before writing it in your final copy.
5. You may duplicate pages as needed.
6. You should write your final draft in pen.
7. The record book should be completed by the 4-H youth.
8. If you need assistance, contact your Leader and/or parent/guardian.
9. See the back page for a "GLOSSARY of TERMS" used in this guide.

# Project Inventory

List all equipment and assets you had at the beginning of the project. After recording existing inventory, you should also list those items you purchased this year that you will keep after the project is finished. Inventory examples include clippers, brushes, feeders, cages, etc. Do not list items such as powdered shampoo, baby oil, etc. For definitions, see page 19.

Item Description	Date Acquired	Purchase Cost	Value at Beginning of Project	Depreciation	Value at End of Project
<b>Total Depreciation (Depreciation is an expense)</b>					
<b>Value of Project Assets</b>					

# Project Rabbit Inventory

List all of the rabbits you own at the beginning of the project and add any rabbits you purchase or add to your project during the project year. Rabbits sold during the year should be recorded under OTHER INCOME. Rabbits sold should have a \$0.00 Value at End of Project for this page. Include copies of your rabbit's pedigrees and registrations after this page.

Rabbit Description	Breed	Sex	Date Acquired	Beginning Value	Vale at End of Project	Status (sold, kept, died, etc.)
<b>Value at Beginning</b>						
<b>Value at End/Value of Rabbit Assets</b>						

# Feed Expenses

List each feed purchase you made this year.

# Sponsor Income

You should record here the amount of money you have received to help you fund your project, prior to the end of your project. This could be money from parents/guardians, family, or friends to aid in your project. If no money is collected, enter zero.

Date	Sponsor's Name	Total
Total Sponsor Income (if none, enter zero)		

# Earned Income

Other project income should be recorded here, such as earnings used to fund the project. These could be earnings from chores or other personal income that you have earned.

# Terms and Explanations

If you work on your project for more than one year, then you will keep a record book for each year, even if you are keeping the same rabbits.

## Notes for Project Inventory and Project Rabbit Inventory

1. Project Year – Is based on the 4-H Project year (Sept. 1–August 31). It is the current year during which you are working on your project.
2. Date Acquired – List the date you obtained each item, as accurately as possible.
3. Purchase Cost or Value – How much did the item cost when obtained?
4. Value at Beginning of Project – Same as purchase cost for items purchased during the current project year. On items purchased in previous years, this should be the value from last year’s ending inventory or a depreciated value of 10% of the initial purchase cost per project year.
5. Depreciation of 10% – This will be a 10% depreciation, or loss of value of your assets, and it is an expense.
6. Value at the end of the project – This is the value of the item at the beginning of the project minus the total depreciation.
7. Beginning Value – Value of existing rabbits at beginning of project OR purchase cost of new animals OR value of animal(s) born.
8. Value at End of Project – Your rabbit’s value should increase throughout the course of the project; this is an estimated value. Think of the cost of feed and special attributes of your rabbit (litter boxed trained, good temperament, etc.) that might increase a rabbit’s value.

### Sample for a 2011 project

Item Description	Date Acquired	Purchase Cost	Value at Beginning of Project	Depreciation	Value at End of Project
