Wakulla County Extension 84 Cedar Avenue
 Crawfordville, FL 32327
 Contact: Les Harrison, Coordinator
 850-926-3931/harrisog@ufl.edu

What Is The Master Gardener Volunteer

Working with the Extension Agent, Master Gardener Volunteers provide leadership and service to their community in gardening activities and continued education. They work with the Extension program and the youth with the opportunity to participate in services such as answering gardening questions, conducting educational plant clinics, beautifying the community with their talents, and additional other events that promote environmentally friendly horticultural practices.

How Does Your Sponsorship Help?

This program is entirely dependent on support from funds generated by the kindness of monetary donations, plant sales, volunteers providing their personal time maintaining the

grounds, weeding, mowing, gardening, repairing garden structures and supplying educational garden beds for lessons making an impact on our youth programs.

What Does The Master Gardener Volunteers Do?

This program brings together our volunteers and youth to support our local community. By becoming a Sponsor, you will help volunteers make a difference at their level of experience and education. Your sponsorship enriches how the Master Gardener Volunteers are able to study together while sharing their experience and knowledge with the public. The results are significant and meaningful as the produce they have grown are shared among the local 4-H Clubs and the Family Consumer Science Program throughout Wakulla County.
